

Towns 1, 2, and 3 are located north of towns 4 and 5. They are all built on a plain. It was sunny in town 1 on Monday but was raining in towns 2 and 3. A wind is blowing in all the towns from the north.

If the wind continues to blow from the north, what will the weather most likely be like in towns 4 and 5 on Tuesday?

- (A) rainy in both
- (B) sunny in both
- (C) sunny in 4 and rainy in 5
- (D) rainy in 4 and sunny in 5
